If not or "I don't know yet", please briefly describe why.

Don't know if or when I'll be training coworkers in the next couple a months

If you were given the task of redesigning this course, what would you change?

Because of the number of trainers there was too little time for each trainer. I missed a 'home assignment' in your own organisation. After 10 weeks we could set up a video conference and share our experiences. A better balance between the purpose of the training (train the trainer) and the level of both participants and trainers. Participants were never hindered by a stammering organisation. - the Yammer group ...
